# Postman Set Up Instructions

Please follow the below steps to install and set up Postman for sending messages to the system
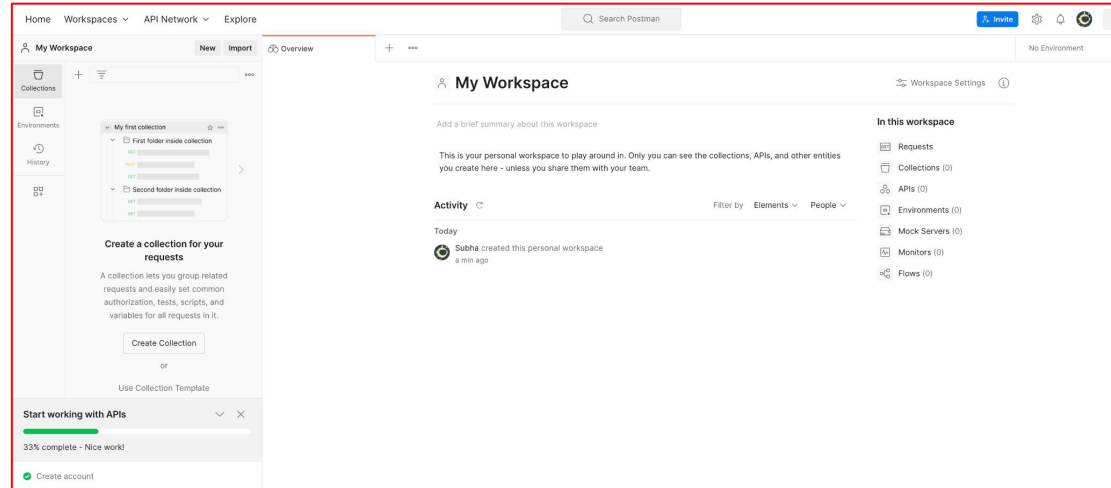

Step 1: Navigate to www.postman.com and click on 'Create Account'.
Sign up for a new account.

**Step 2:** After creating an account, you will land on a page which looks like the below image.
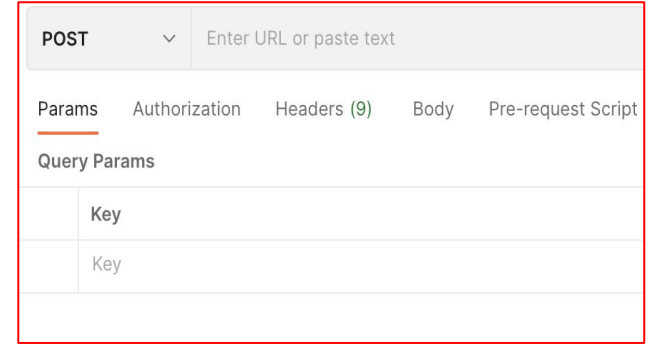

Step 3: Click on 'Collections' on the left hand side of the navigation pane, and then New Collection by clicking on "+"

Step 4: After adding the collection, add a request by clicking on the three dots, which are circled in red below
Then click 'Add request'

Step 5: Select the POST option and copy paste the code given below in the space mentioned "Enter URL or paste test"

Code to put in for POST message:
Note: The code is available in the Github Read Me page. Please copy the below code

```
curl --location 'https://databricksstreaming.servicebus.windows.net/topic1/messages'
--header 'Authorization: SharedAccessSignature
sr=https%3A%2F%2Fdatabricksstreaming.servicebus.windows.net%2Ftopic1&sig=dCiyGYjowPsQBlw537yHzAzazWK/IGnWOII2Xj2GGRM%3D&se=10
1682055697&skn=RootManageSharedAccessKey'
--header 'Content-Type: application/atom+xml;type=entry;charset=utf-8'
--header 'x-ms-retrypolicy: NoRetry'
```

Step 6: Then copy and paste the remaining information (codes provided in at bottom of previous page)

The header option should appear as below, on the 'Headers' tab

|	POST ∨	https://databricksstreaming.servicebus.windows.net/topic1/messages

Params   Authorization   Headers (9)   Body   Pre-request Script   Tests   Settings

Headers   👁 6 hidden

	Key	Value
☑	Authorization	SharedAccessSignature sr=https%3A%2F%2Fdatabricksstreaming.servi...
☑	Content-Type	application/atom+xml;type=entry;charset=utf-8
☑	x-ms-retrypolicy	NoRetry
	Key	Value
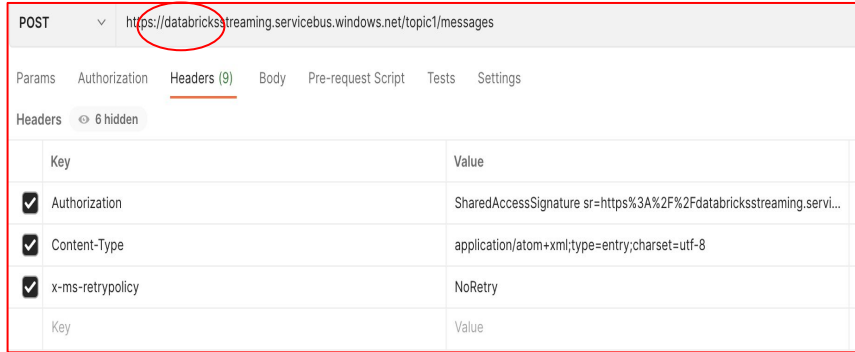

Step 7: Click the Body tab and select the raw option,Type the answer for **"Question of the day"** as given below in the blank space next to "1" and click on the send button on the right side of the same screen.

POST ∨	https://databricksstreaming.servicebus.windows.net/topic1/messages

Params   Authorization   Headers (10)   Body ●   Pre-request Script   Tests   Settings

● none   ● form-data   ● x-www-form-urlencoded   ● raw   ● binary   ● GraphQL   XML ∨

```
1  Welcome to Postman
```

Question of the day : "How is your day going?". Keep it going through the messages…
